

Our infamous, interchangeable, blue pliers. Now as a desk model.

Dear Sir/Madam.

The price given is for our blue wood-based embosser. When considering value for money, please note that all of our machines are made in-house, and engraved onto 100% metal embossing plates for longevity and a crisper image when compared to plastic embossers.

This model comes with a wooden base, and is also available with a metal base (pictured below). All of our blue pliers can be updated with new embossing plates, should you wish to update your address or design, and come with a one-year guarantee as standard.

We thank you for giving us the opportunity to quote you and look forward to hearing from you.

Testimonials:

Amazon Verified Purchase

“Well made item, sturdy and heavy enough not to keep sliding across the desktop when in use. The dies were produced to my exact specification and are spot on. Good product, great service”

Amazon Verified Purchase

“This little seal is brilliant. I had purchased one from another company - double the price and not as crisp emboss. This one is really great, really pleased, have recommended to several friends.”
