

Our extra heavy-duty No.6 desk embosser. When nothing else will do.

Dear Sir/Madam.

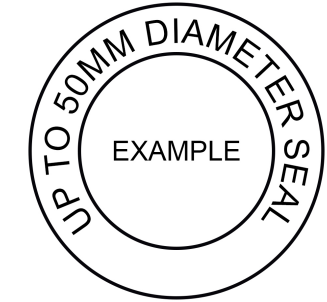

The price given is for our No.6, Extra Heavy Duty Desk Embosser. When considering value for money, please note that all of our machines are made in-house, and engraved onto 100% metal embossing plates for longevity and a crisper image when compared to plastic embossers.

This model is made from heat-treated aluminium. Available in two finishes; metallic silver and an antique-look Black and Gold leaf (pictured below). Because of its heavy duty design, it will emboss through wafers and ribbons and can incorporate larger seal diameters, outlined below. All of our products come with a one-year guarantee as standard.

We thank you for giving us the opportunity to quote you and look forward to hearing from you.

SAMPLE EMOSSER

Embossing Guide

Plate Size	Paper weight
38mm	300gsm
42mm	280gsm
44mm	250gsm
50mm	220gsm

This table recommends the maximum paper weight relative to embossing plate size, in order to achieve a crisp impression.
