

How to Purchase Your Seal

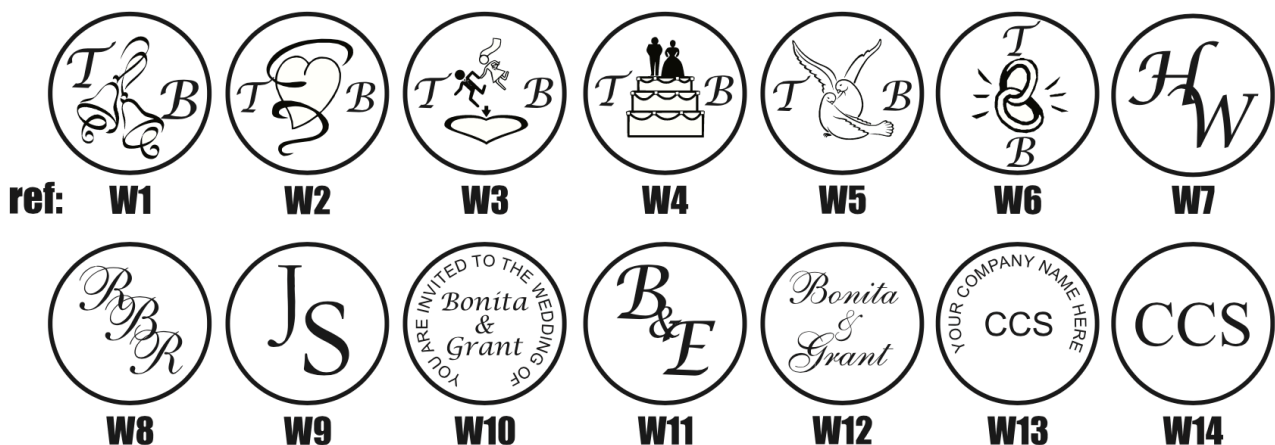

Step 1: Choose the right size for you.

As standard, our seals are available in a smaller “25mm” diameter or a larger “38mm” diameter. Both are great but remember; you’ll get up to eight impressions with the smaller seal and up to four with the larger seal when using our 100mm sealing wax. If you’d prefer another size, email us. We can create anything from 5mm to 80mm

Step 2: Choose a design.

We offer fourteen designs as standard. Take a look at them below and make a note of the design you like.

We can also make your seal from a custom logo or design. It’s our speciality. We can either use a machine to engrave the design or chisel it by hand. We can also produce 3D effects. So if you don’t see a design you like, get in touch.

Step 4: Choose a font/typeset.

We offer several options including modern styles, cursive, serif and sans-serif fonts. Make a note of your desired font from the options below:
